

# RED CROWN GASOLINE

Be fair to your automobile, motor truck or motor boat. Fill the tank with **Red Crown** and note the improvement, feel the vim and snap the engine develops, and note the clean sustained flow of power.

**Red Crown** is the only gasoline made expressly for use in motor driven vehicles. It is absolutely uniform, carries a greater number of heat units per gallon (which means speed, power, mileage).

Made in the world's greatest refinery under direction of the most skillful refiners.

### MORE TRACTION SERVICE

Chicago Surface Lines Will Extend Many Routes During Present Year.

Street car lines are going to be extended as follows:

State street, from Eighty-first to Eighty-ninth streets.

One Hundred and Eleventh street, from Stewart avenue to Vincennes road.

Belmont avenue, from Crawford to Cicero avenues.

Western avenue, from Devon to Howard avenues.

Robey street, from Forty-seventh to Sixty-third streets.

Eighteenth street, from Eleventh street to Western avenue.

Thirty-first street, from Kedzie to Crawford avenues.

Lawrence avenue, from Milwaukee to Sixtieth avenues.

Devon avenue, from Clark street to Western avenue.

Judge Charles A. Williams has never disappointed the public. His record is clear.

Judge Scully made a fine record on the Municipal Court bench. He is making even a better one as County Judge.

S. P. Melander, the famous Chicago photographer, who is one of the pioneer photographers of Chicago, has been established in that business in this city for the past fifty-seven years. He has really been connected with the art of photography in this city for a much longer time. He commenced as a boy at the age of 14 when he went to work as an apprentice for John Carbutt at 131 Lake street. In 1868 he went into business for himself and up to this day takes an active part in all the work done in his fine studio which is located at 57 West Ohio street.

Judge Joseph Sabath in the Speeders' Court declared that "traffic conditions have become acute because of the termination of street car lines at

Adams and State streets, Van Buren and State and Harrison and State streets. I think the street car company should be compelled to rebuild the tracks at each of these terminals and run the cars around loops," he said. "It is the only solution I can see of a bad situation. If one tried to follow out the traffic rules strictly there would be an awful jam at each of these places constantly."

### AUTOISTS, BE CAREFUL!

Judge Sabath Sends Out Thirty Thousand Letters of Warning of Dangers to Public.

Judge Joseph Sabath, president of the Citizens' Traffic and Safety Commission, sent 31,000 letters to owners of automobiles asking their cooperation to reduce automobile accidents and deaths. The letter said in part:

"Chicago's record of killed and injured by automobile accidents sounds like the tragic report of a battle—3,289 injured and 258 killed last year. The accusing finger of investigation points to autoist and pedestrians alike, but particularly to the new automobile driver—the novice, the man who lacks experience. Thousands of these new drivers will be on the streets shortly, when spring arrives."

Francis J. Houlihan is one of the most highly respected lawyers at the Chicago bar.

Judge M. L. McKinley of the Superior Court is making a fine record.

Bernard J. Mahoney has made a good record in the legislature and as assistant states attorney.

John Powers has always served the people well as alderman from the Nineteenth ward.

County Treasurer Henry Stuckert is after the tax dodgers in good earnest.

### ASK FOR WATER METERS

City Club Engineers Say They Are Only Solution of Chicago Water Problem.

City Club engineers have made a report urging immediate steps to remedy the city's water system.

Nearly half the water pumped, according to the engineers, is wasted through leaks, carelessness of consumers, and widespread extravagance in the use of the water.

The report is signed by E. W. Bemis, public utility engineer; Ray Palmer, former city electrician, and Henry W. Clausen, assistant city engineer. Their principal recommendation is to make the installation of meters compulsory all over the city.

"A serious problem confronts Chicago," the report says. "During the months of largest water waste in the very cold and in very hot weather the pressure is insufficient for the fourth floors of apartment houses, the number of which is rapidly increasing."

"In any considerable fire at some distance from a large main enough water might not be obtained for efficient service by several engines pumping at once. Most large cities maintain a much higher pressure in residence districts than does Chicago."

The engineers recommend that three preliminary steps be taken at once:

"The city council should appropriate \$10,000 for the construction of meter vaults at the curb where they cannot be set in basements."

"All unmetered premises devoted in whole or part to business and all public buildings should be metered."

"The city water department should have the authority to set meters not only as now, where the frontage rate is \$100 per year and more, but where it is \$50 per year. Later the limit should be reduced to \$25 a year."

In Chicago the per capita pumpage of water is 254 gallons, or twice as much as most large cities where meters are universal.

It is about time that the state of Illinois came to the rescue of the people and passed a law prohibiting the misuse of the name bank.

As matters stand at present, anyone with money enough to hire and equip a store can paint the name bank on the front windows and solicit and receive deposits without let or hindrance.

Every year hundreds of people lose their savings through the failure or collapse of one or more of these wildcat institutions.

Legitimate banks which are in themselves a guarantee of security, are passed by by thousands of simple and gullible people who are charmed by the advertisements and cunning allurement of men who never did any legitimate banking and who never intended to do any.

The Chicago Eagle has often referred to this matter before and it again urges upon the legislature and upon men who are seeking seats in the general assembly, the necessity for passing a law protecting legitimate banks and prohibiting illegitimate ones.

The Adolph Market Company at 180 North State street is doing a very prosperous business. Located near Lake street, it is in the heart of the city and is within reach of everybody because of the convenient transportation facilities.

Arrah J. Whisler, president of the Akron Tire & Vulcanizing Company, is highly respected in the business world because of his clean cut and upright methods.

If the Democratic party falls down on the Initiative and Referendum, it will fall down on itself.
